

Phoenix Surfacing's skilled team of experts have solid experience working alongside Town / Parish Councils on a variety of projects, offering real benefits to you.

Desborough Woodland Cemetery

Phoenix successfully won a £130k contract for the re-construction of footways, driveways and the provision for new drainage at the Desborough Woodland Cemetery.

Consultation was given with regard to the specification and drainage options prior to commencement and continuous discussions with the local council ensured the final surface was in keeping with the surroundings.

Care had to be taken during the course of the project due to the sensitive location of the works and regular communication with the local authority was crucial to ensure disruption was kept to a minimum during burial services.

Works commenced April and completed June 2010.

Please see overleaf for a full list of Town / Parish Council projects completed by the Phoenix team.
